ABOUT

I am Teena Yadav, a B.Tech Computer Science student (2024–2028) at KIET, with interests in software development, web technologies, and problem-solving, currently building strong skills in programming and DSA.

EDUCATION

2024 - 2028 & Bachelor's Degree at **KIET** (GPA: 8.8/10)
2024 & Class 12th CBSE Board (80%)
2022 & Class 10th ICSE Board (87%)

SKILLS

Proficient in C, C++, and Python, with solid understanding of Data Structures and Algorithms. Experienced in web development technologies including HTML, CSS, and JavaScript. Strong problem-solving, debugging, and analytical abilities.

ACADEMIC PROJECTS

Travel Website (HTML, CSS): Designed and developed a responsive travel-themed website using HTML and CSS, featuring visually appealing layouts, navigation menus, and styled pages to enhance user experience. Calculator and Cricket Game (JavaScript): Built an interactive calculator application and a simple cricket game using JavaScript, implementing core programming concepts, event handling, and logical operations to create engaging functionality. Personal Portfolio Website (HTML, CSS, JavaScript): Created a portfolio website to showcase skills, projects, and achievements, demonstrating proficiency in front-end development design principles.

EXTRACURRICULAR ACTIVITIES

Leadership: Actively participated in team projects and group assignments. Volunteering: Contributed as a volunteer in college events, assisting in coordination and management to ensure smooth execution. Engaged in community service activities, promoting teamwork, responsibility, and social awareness.
